

Course Instructor

**Bridget Kelly,
PSC Environmental Services**

Bridget's classes are OSHA certified and geared specifically to the needs of HW professionals. She trains in-house PSC HW staff, local health department employees, haz-tech subcontractors and public fixed facility HW personnel throughout the Western United States. Course content includes HW operations safety, chemical awareness, segregation and Haz-Cat. Demonstrations include hands-on classification of empty containers of hazardous materials received at HW programs. This class will focus on topics relevant to personnel working with hazardous materials.

Bridget has an enthusiastic and engaging style of teaching. Join us in Billings, and be prepared to learn!

Schedule

Training is in the Skybridge 4 Room

A new format will be tested for this training; two long days - with lots of breaks - and one short day. Lunch will be "on-your-own" approximately noon – 1:15 pm each day.

Tues. Jan. 15, 8:00 am – 6:30 pm (9-10 hrs)
Wed. Jan. 16, 8:00 am – 6:30 pm (9-10 hrs)
Thurs. Jan. 17, 8:00 am – 12:00 pm (4 hrs)

This schedule will allow most attendees to return home on Thursday afternoon.

This training is provided by

Endorsed by
Montana Association of Counties, MACo

Course Description

- Understand the purpose of OSHA and its role in regulating occupational safety
- Use Site Characterization to establish problems that may exist in your workplace and measures that can be implemented to eliminate hazards
- Identify hazardous materials existent in the workplace and the possible methods, symptoms and preventative measures of exposure
- Understand the use of various forms of Hazard communication, including Material Safety Data sheets (MSDS), to identify and properly handle hazardous materials
- Familiarize yourself with materials, compounds and mixtures that may present flammable, explosive, chemical or radiological hazards
- Emphasize the importance of personal protective equipment in limiting hazardous exposure
- Establish an effective Site Control Program to limit the risk of exposure to only those working in the hazardous work zone
- Implement procedures for treating workers in the event of hazardous exposure

12 SWANA CEUs allowed for this course.

Registration
